APPENDIX

Reconciliation of Core Net Investment Income

On a supplemental basis, we provide information relating to core net investment income which is a non-GAAP measure. This measure is provided in addition to, but not as a substitute for, net investment income. Core net investment income represents net investment income excluding our capital gains incentive fee. As the capital gains incentive fee, for generally accepted accounting purposes, is based on the hypothetical liquidation of the entire portfolio (and as any capital gains incentive fee may be non-recurring), we believe that core net investment income is a useful indicator of operations exclusive of any capital gains incentive fee. We note that such amount is excluded from the core net investment income amount presented below.
